Why should you choose home care?

For many of you who want to live in your home or apartment, home health care is a better and cost-effective alternative to hospital, long-term care facility or retirement residence. It allows you to stay in your homes, preserve your independence and dignity, and in enhancing your quality of life giving release to your family knowing you are well taking care of.

No matter where you live, in your home, apartment or institutional facility, we will develop a personalized care plan to meet your need.

When should you consider home care?

Home care is available to individual of all ages with a wide range of health conditions.

Nevertheless, the need for home care is generally caused by one of the following situations:

- √ Being released from the hospital following a sudden illness or situation such as a stroke, injury, surgery, or heart attack.
- √ Needing a greater and more attentive level of care than presently available to you at home due to an ongoing health related issue.
- √ You or your family members are finding it difficult to meet your care and/or particular health or other needs at home.

What can we offered you?

SAMTIANA Home Health Services work toward making the process of arranging your home care simple and stress-free as possible by:

- √ Listening attentively and taking time to understand your specific needs;
- √ Having a qualified Nurse or a Specialist staff conduct a free assessment of your specific home care needs;
- √ Discussing with you the home care options available to you;
- √ Working with you to determine if you are eligible for services through insurance plans, private plans, government home care program and any other plans, and then assist with the coordination of services;
- √ Matching you with the right team of professional and/or specialize caregivers;
- √ Offering nurse-supervised and specialist caregivers who are licensed or certified in their field, and have been carefully selected and screened, and fully insured and bonded; and
- √ Remaining true and committed to Canadian clinical and quality standards.
